

Technical parameter	
Set pressure Ps(bar)	5~16
Discharge pressure Pd(bar)	≤1.1Ps
Connection thread dimension (in)	R1/2
Coefficient of discharge K_{dr}	≥0.45
Usable temperature (°C)	-20~120
working medium	Air+Oil/2

Technical Requirement:

1、 The design, manufacture and inspection of safety valve are based on EN ISO 4126-1 and PED instruction;
