

Technical parameter	
Set pressure Ps(bar)	1~5
Discharge pressure Pd(bar)	≤1.1Ps
Connection thread dimension (in)	R1/4
Coefficient of discharge K_{dr}	≥0.45
Usable temperature (°C)	-20~150
Working medium	Steam、Air

Technical Requirement:

1、 The design, manufacture and inspection of safety valve are based on EN ISO 4126-1 and PED instruction;
