

Technical parameter	
Set pressure Ps(bar)	5~16
Discharge pressure Pd(bar)	$\leq 1.1P_s$
Connection thread dimension (in)	R1"
Coefficient of discharge K_{dr}	≥ 0.45
Usable temperature ($^{\circ}C$)	-20~120
working medium	Air+Oil/2

Technical Requirement:

1、 The design, manufacture and inspection of safety valve are based on EN ISO 4126-1 and PED instruction;
